

# G250

Partially Cassetted  
Retractable Awnings

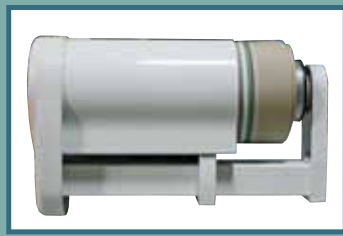

The G250 Retractable Awning is the perfect solution for roof mount installations. Shown with front bar drop screen.

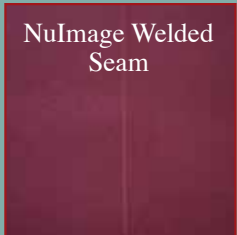

Patented articulating shoulders provide easy to adjust pitch control. These drop forged components will last a lifetime.

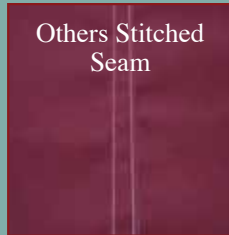

The partially enclosed hood is drawn down at the back to cover the roll of the fabric making this awning perfect for roof mount applications.

The G250 Retractable Awning is the elegant way to provide shade on demand, reducing cooling costs while protecting your family from harmful UV rays. NuImage Awnings combine superior quality engineering and state of the art technology. All frame components have an electrostatic powder coated durable finish to prevent chipping and cracking. You can depend on NuImage Awnings when only the best will do.
